Gazelle Literary Agency(GLA)

is a subsidiary of Gazelle International Group that was established in 1999. The company has since been involved in imports and distribution of books and journals in the Middle East and Persian Gulf region under the international Laws. GLA started its activities in 2012 and specifically focused its attention on introducing and selling the translation rights of Persian fictions.

In order to expand its international interactions, GLA activated new sections such as rights acquisition, festivals and awards, and literary meetings, in mid-2013 . Based on the expansive knowledge of Iranian market and vast collaborations with foreign publishers and literary agencies, GLA has prepared some catalogs of a number of worthwhile foreign fiction and non-fiction works in different categories. These catalogs are aimed at filling the gap of such categories in Iran and covering the diverse interests of all Iranian Publishers. The elite experts of GLA who are all the eminent and highly experienced translators, have fully studied, evaluated and confirmed the quality and possibility of the translation of these works in Iran.

Since certain local publishers do not respect the copyright and the international laws and constantly translate and publish foreign works in Iran without the right-holder's permission, **GLA is determined to present its catalogs only to those publishers who respect the professional and moral rights.** GLA hopes these activities would attract the authorities' attention to the importance of the copyright matter in Iran, as a safe gate for the eminent Iranian literature to enter the world markets, and lead us to public respect to the authors' right inside Iran.
